HealthRight 360

Project Type

Rehabilitation; wellness center

Project Description

HealthRIGHT 360's project involved the acquisition and renovation of a 48,000 square foot building in the heart of San Francisco. The new building opened its doors in 2017 as an integrated health care center for low-income and safety-net patients, offering a comprehensive array of services including primary medical and chronic disease treatment, dentistry, mental health services, substance use disorder treatment services that address the social determinants of health (housing, employment, education, computer literacy and wellness), and a low-cost pharmacy. The facility includes 30,000 square feet of medical space which includes dental services and a pharmacy, 10,000 square feet of mental health and social service space and 10,000 square feet of administrative space.

Investment

The HealthRIGHT 360 New Markets Tax Credit (NMTC) financing was supported by loans from Bank of America Merrill Lynch and Nonprofit Finance Fund. In addition to Enterprise's \$12 million NMTC allocation, four additional CDEs provided a total of \$51 million of allocation: Corporation for Supportive Housing, Primary Care Development Corporation, Banc of America CDE, and Northern California Community Loan Fund.

Market

The new HealthRIGHT 360 facility is located on Mission Street in the heart of San Francisco. The booming real estate market has made it almost impossible for many nonprofits to remain in the city. This NMTC financing provided HealthRIGHT 360 the opportunity for a permanent, affordable location to serve its clients. The new facility primarily serves the South of Market and Tenderloin neighborhoods of San Francisco, neighborhoods primarily comprised of low-income residents with high concentrations of homelessness. Approximately 70-80 percent of clients are very low-income with high health needs and unstable housing. For the 12 months ended April 30, 2015, approximately 72 percent of the sponsor's clients reported being homeless or in unstable housing situations.

Community Impact

The medical clinic includes 15 exam rooms, which is twice as many as it operated at its prior location. The clinic is expected to serve 18,500 medical visits and 7,400 patients a year in addition to 5,400 dental visits to 2,160 unique patients. The Resource Center located at the new facility provides services in the areas of education and training, employment, and housing counseling, as well as connection to community-based supportive services for residential and outpatient services to clients in all phases of recovery and treatment. Services at the Resource Center include: the Five Keys Charter School classroom which offers GED certification, driver's license applications, computer classes, resume workshops, mock-interviews and the "clothing closet." Through these expanded programs, HealthRIGHT 360 services an additional 6,700 people a year (from approximately 2,800), totaling 9,500 people annually.
