REGIONAL EQUITABLE DEVELOPMENT INITIATIVE (REDI) FUND

Regional Equitable Development Initiative (REDI) Fund

In response to the significant investments being made in Puget Sound transit, the public-private **Regional Equitable Development Initiative (REDI) Fund** was created to help finance the acquisition of property along transit corridors to preserve the affordability of future housing and community facilities.

Project Types

- Multifamily affordable rental housing meeting affordability requirements
- Multifamily affordable for-sale housing, on an exception basis
- Mixed-use projects up to 20% non-residential space, or 30% for projects that provide community facility and/or nonprofit space (ex. childcare centers, health clinics, charter schools, fresh food markets)
- Vacant and underutilized land that will be acquired for the purpose of producing any of the above
- Emphasis will be placed on acquiring properties with interim income potential, particularly existing affordable rental housing

Affordability Requirements

- Projects financed by the REDI Fund must have a minimum of 10% of units affordable to households at or below 80% area median income (AMI) or 20% below the market rent for a comparable unit in the submarket of the acquired property. A covenant reflecting this requirement will be recorded at the acquisition closing.
- REDI will seek to fund projects that maximize affordability on acquired sites. At the fund level, 25% of all units built on sites acquired with REDI must be at or below 50% AMI. The fund has an additional goal to include at least 15 units at 30% AMI.
