

David Edwards

Chief Information Officer

Enterprise Community Partners, Inc.

davidedwards@enterprisecommunity.com

David Edwards is a dedicated technology executive. As chief information officer of Enterprise, David oversees the strategic direction and operational management of the information technology portfolio for the entire Enterprise family of companies. He oversees the design, development and implementation of Enterprise's business operations platforms and corporate back-office solutions, as well as the core technology infrastructure.

David joined Enterprise in July of 2019 as vice president of IT infrastructure, responsible for infrastructure management, as well as the IT help desk, engineering, and operations teams. He previously served as vice president of corporate systems and support with Comscore Inc., one of the largest market data companies in the world. There he led global IT infrastructure, corporate development, help desk, and financial services teams. David has also served as director of infrastructure services with Superior Vision Services and senior IT director of infrastructure services at Inovalon. In these roles, David expertly drove process improvement across vendor engagements to improve supportability and speed resolution of customer incidents and service requests. He also used his expertise in cost-effective technology to develop and implement company-wide organizational systems. David has experience managing multimillion-dollar funds and negotiating contracts with a wide variety of vendors.

With over 20 years in the technology field and experience working in Fortune 500 companies, David has proven abilities in serving as a leader in organizations that have exceeded client and corporate expectations.

David has a bachelor's degree in Computer Technology from Bowie State University and an MBA from Strayer University.
