Independent Auditor's Report

The Board of Directors Enterprise Community Loan Fund, Inc.

Opinion

We have audited the financial statements of Enterprise Community Loan Fund, Inc., which comprise the statements of financial position as of December 31, 2022 and 2021, and the related statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of Enterprise Community Loan Fund, Inc. as of December 31, 2022 and 2021, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Enterprise Community Loan Fund, Inc. and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Enterprise Community Loan Fund, Inc.'s ability to continue as a going concern for one year after the date that the financial statements are issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Enterprise Community Loan Fund, Inc.'s internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Enterprise Community Loan Fund, Inc.'s ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audits.

Notes to Financial Statements December 31, 2022 and 2021

Note 1 - Organization and nature of operations

Basis of presentation

The financial statements include the accounts and transactions of Enterprise Community Loan Fund, Inc. ("Loan Fund"). Our financial statements have been prepared on an accrual basis. Loan Fund uses the equity and fair value methods to account for the interests in entities it does not control.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and judgments that affect the reported amounts of assets and liabilities and disclosures of contingencies at the date of the financial statements and revenue and expenses recognized during the reporting period. Significant estimates are inherent in the preparation of these financial statements in a number of areas, including determining the fair value of unconditional contributions, estimation of potential losses relating to loans and evaluation of the collectability of contributions receivable. Actual results could differ from our estimates.

Organization and business

Loan Fund is a community development financial institution ("CDFI") that was formed in 1990 as a nonstock corporation in the State of Maryland and began operations in 1991. Loan Fund is tax-exempt under section 501(c)(3) of the Internal Revenue Code, as amended, and is a 509(a)(2) organization. Loan Fund is controlled by Enterprise Community Investment, Inc. ("Investment"), a 501(c)(4) social welfare organization. Investment is a wholly-owned subsidiary of Enterprise Community Partners, Inc. ("Partners"), a 501(c)(3) not-for-profit publicly supported charitable foundation.

Our mission is to deliver innovative financial products and technical assistance to mission-aligned organizations to acquire, develop and preserve quality affordable housing for low- and moderateincome families, and to revitalize their communities by providing access to good jobs, quality affordable housing, first-rate schools, transportation and healthy living environments. We are supported primarily by interest income and fees on loans. Generally we use contributions and grants to support our lending activities rather than our operations. We also receive loans from various not-for-profit organizations and financial institutions to fund loans to community development organizations.

Donor restrictions

Net assets, revenue, expenses, gains and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets and changes therein are classified as follows:

- Net assets without donor restrictions Net assets not subject to donor imposed restrictions.
- Net assets with donor restrictions Net assets subject to donor imposed restrictions that will be met by our actions and/or the passage of time, or maintained perpetually by us.

Revenue is reported as increases in net assets without donor restrictions unless use of the related assets are limited by donor imposed restrictions. Investment proceeds and realized/unrealized gains and losses are reported as changes in net assets without donor restrictions unless specifically limited by donor imposed restrictions. Expenses are reported as decreases in net assets without donor restrictions. Expirations of donor restrictions on net assets (i.e., the donor-stipulated purpose has been fulfilled and/or the stipulated time period has elapsed) are reported as reclassifications from net assets with donor restrictions.

Notes to Financial Statements December 31, 2022 and 2021

Note 2 - Significant accounting policies

Revenue recognition and related matters

Revenue is recognized when earned and realized pursuant to the following:

Interest income

Interest income on loans receivable and notes receivable is accrued on the principal balance outstanding at the contractual interest rate. Direct loan origination costs are offset against related origination fees and the net amount is amortized over the life of the loan as a component of interest income.

Contributions and grants

Contributions and grants that are unconditional promises to give are recognized as revenue in the period received. Contributions with donor-imposed restrictions and unconditional promises to give with payments due in future periods are recorded as increases to net assets with donor restrictions and are reclassified to net assets without donor restrictions at the time the requirement for release of restriction is met. Unconditional promises to give with payments due in future periods where the donor has explicitly permitted their use in the current period and the promise to give is otherwise free of a donor-imposed purpose restriction are recorded as increases in net assets without donor restrictions. Conditional promises to give are not recognized as revenue until the conditions on which they depend are substantially met. Contributions of assets other than cash are recorded at estimated fair value at the date of the gift. Contributions receivable at December 31, 2022 and 2021 were promises expected to be collected in less than one year.

Cash and cash equivalents and investments

Investments with maturities at dates of purchase of three months or less are considered to be cash equivalents. Cash equivalents are invested in money market mutual funds. Investments consist primarily of marketable securities as well as stock and certificates of deposit. Investments in marketable securities consist of U.S. Treasury and agency securities and are carried at fair value. The original basis of such investments is the purchase price. The carrying value of these marketable securities were \$56.3 million and \$0 at December 31, 2022 and 2021, respectively. Our stock, which is with the Federal Home Loan Bank of Atlanta, is accounted for using the cost method and is evaluated annually for impairment. As of and for the years ended December 31, 2022 and 2021, we did not identify any events or changes in circumstances that might have a significant adverse effect on the recorded cost of this investment requiring the recording of an impairment loss. The carrying value of this stock was \$522,000 and \$459,000 as of December 31, 2022 and 2021, respectively. Investments also include certificates of deposit with maturities at dates of purchase of more than three months, which are carried at fair value. Certificates of deposits were \$1.0 million at December 31, 2022 and 2021.

Restricted cash and cash equivalents and restricted investments

Restricted cash and cash equivalents and restricted investments consist of funds held for lending activity, restricted contributions and funds held for others under escrow, partnership and fiscal agency agreements.

Loans receivable

We make loans to community-based not-for-profit and for-profit mission aligned affordable housing developers, community organizations and certain affiliates for the purpose of supporting low-income communities. We have two segments of loans in our portfolio - housing loans and other loans. Housing loans are primarily used to acquire, renovate and/or construct multi-family residential housing. Our other loans generally provide financing for a variety of community development needs,

Notes to Financial Statements December 31, 2022 and 2021

including community facilities such as charter schools and health care centers as well as loans that encourage community development by supporting growth and operating needs of organizations in low-income communities. Our loans are generally collateralized by real estate. The majority of the loans have repayment terms requiring a balloon payment when construction or permanent financing on the underlying property is secured, the property is sold, or at the stated maturity date.

We may modify loans for a variety of reasons. Modifications include changes to interest rates, principal and interest payment terms, loan maturity dates, and collateral. Some modifications are in conjunction with a troubled debt restructure when a loan is no longer performing under the current loan terms. These modifications may include the types of modifications noted above and/or a forbearance agreement. We also enter into loan participation agreements with other organizations as the lead lender. If certain conditions are met, these loan participations are accounted for as sales by derecognizing the participation interest sold. No gain or loss on sale is incurred. If the conditions are not met, we continue to carry the full loan receivable on our financial statements and reflect the participation component of the loan as a secured borrowing with a pledge of collateral. We retain the servicing rights on participations and provide loan servicing on other loan arrangements as well. Since the benefits of servicing approximate the costs, no servicing asset or liability is recognized.

During the loan approval process, underwriting criteria is generally consistent regardless of the portfolio segment. Criteria considered for housing loans include an analysis of the market, sponsor, primary repayment sources, loan takeout options, and collateral. For other loans and investments, more attention is focused on additional criteria, such as the borrower's business plan and cash flow from operations. Once loans are approved, our monitoring processes are consistently applied across portfolio segments.

As a result of these monitoring processes, we generally group our loans into three categories:

- Performing Loans are performing and borrower is expected to fully repay obligations.
- Monitored Loans are performing but require monitoring due to change in market, sponsor or other factors that have the potential to impact the borrower's ability to repay obligations.
- Impaired The primary source of repayment is questionable and the value of the underlying collateral has declined, increasing the probability that we will be unable to collect all principal and interest due.

For impaired loans, we discontinue the accrual of interest income in our statements of activities. Interest payments received on these loans are recognized as either a reduction of principal or, if it is determined that principal can be fully repaid irrespective of collateral value, as interest income. Interest accrual is resumed when the quality of the loan improves sufficiently to warrant interest recognition.

Loans are carried at their unpaid principal balance, less an allowance for loan losses to reflect potentially uncollectible balances. The allowance for loan losses is based upon management's periodic evaluation of the criteria used to initially underwrite the loan as well as other credit factors, economic conditions, historic loss trends and other risks inherent in the overall portfolio such as geographic or sponsor concentration risks. The allowance is increased through a provision for loan losses which is charged to expense and reduced by charge-offs, net of recoveries. Loans are charged off when repayment is not expected to occur. When a third party guarantees loss coverage on a loan and a charge-off occurs, the amount received is netted against the charge-off for reporting purposes. After charge-off, we continue to pursue collection of the amount owed.

Notes to Financial Statements December 31, 2022 and 2021

Property and equipment

Property and equipment are stated at cost less accumulated depreciation and amortization. If events or circumstances indicate that the carrying amount is not recoverable, the related asset is tested for impairment and written down to the fair value, if impaired. As of December 31, 2022 and 2021, we have not recognized any reduction in the carrying value of property and equipment. Upon meeting certain criteria, we capitalize external direct costs incurred and payroll and payroll-related expenses for employees who are directly associated with developing or obtaining software applications and related upgrades and enhancements. The cost of property and equipment is depreciated or amortized using the straight-line method over the estimated useful lives of the related assets, which range from three to seven years. As of December 31, 2022 and 2021, our property and equipment of \$1.5 million and \$1.4 million, respectively, consisted of software applications. Accumulated depreciation and amortization was \$900,000 and \$778,000 as of December 31, 2022 and 2021, respectively.

Debt issuance costs

Debt issuance costs, net of amortization, are reported as a direct deduction from the face amount of the loans payable to which such costs relate. Amortization of debt issuance costs is reported as a component of interest expense and is computed using an imputed rate of interest on loans payable with scheduled draws and using the straight-line method for loans payable with unscheduled draws. Amortization expense was \$156,000 and \$92,000 for the years ended December 31, 2022 and 2021, respectively, and is included as a component of interest expense on the accompanying statements of activities.

Investments in unconsolidated partnerships

We account for our investments in unconsolidated partnerships using the equity and fair value methods of accounting. Under the equity method, the initial investment is recorded at cost, increased by our share of income and contributions and decreased by our share of losses and distributions. Under the fair value method, investments without a readily determinable fair value may, as a practical expedient, be estimated by using the net asset value per share. See Note 6 for additional information.

Other real estate owned

During the year ended December 31, 2022, Loan Fund foreclosed on a property that secured a troubled loan. The foreclosed property is recorded in Other Real Estate Owned ("OREO") and held at the original amount of \$1.5 million at December 31, 2022. As the OREO is recorded at the loan amount, no gain or loss was recognized at foreclosure. This property is subject to a six month redemption period where the borrower can redeem the property out of foreclosure through repayment of the loan. Subsequent to the redemption period, Loan Fund plans to sell the property to another mission aligned community development institution.

Funds held for others

We hold assets, primarily cash and cash equivalents, for third parties pursuant to fiscal agency and similar contractual arrangements. The assets held are classified as restricted and the liability is included in funds held for others.

Income taxes

Loan Fund is recognized as a 501(c)(3) charitable organization and is exempt from income taxes with respect to charitable activities. We did not have any unrelated business income during the years ended December 31, 2022 and 2021. Accordingly, no provision or benefit for income taxes has been recorded in the accompanying financial statements and there are no other tax positions which must be considered for disclosure. We do file tax returns required to be completed by tax-exempt entities with the Internal Revenue Service ("IRS") and other taxing authorities. These income tax returns are

Notes to Financial Statements December 31, 2022 and 2021

subject to examination by the IRS for a period of three years from the date the return is filed. While no income tax returns are currently being examined by the IRS, tax years since 2019 remain open for examination.

Expense allocation

Expenses by function have been allocated among program activities and management and general support services based on an analysis performed by us. Interest expense, net change in allowance for loan losses, and grant expense are program activities by nature. All other operating expenses are allocated based on staff time or the expense's nature, depending on the type of expense.

Fair value of financial instruments

The carrying amount of investments in unconsolidated partnerships not accounted for under the equity method are recorded at fair value. The carrying amount of other financial instruments approximate their fair value.

Note 3 - Liquidity

Loan Fund's financial assets available to meet general expenditures over the next 12 months consists of the following (\$ in thousands):

over the next twelve months	\$ 89,145	\$ 57,348

Loan Fund's liquidity policy includes maintaining unrestricted cash and cash equivalents sufficient to meet 4.5 months of expenses. Contributions receivable have donor-imposed restrictions that will not be met within one year. Loans payable could be drawn to finance the portion of loans receivable that is currently funded with our cash, providing the cash for additional liquidity.

Notes to Financial Statements December 31, 2022 and 2021

Loan Fund also maintains lines of credit for potential liquidity needs, some of which are available for working capital (see Note 8). Commitments on these lines available for working capital totaled \$55 million and \$70 million at December 31, 2022 and 2021, all of which was undrawn.

Note 4 - Loans receivable, net

Since 1981, we have closed approximately \$2.6 billion of loans to various community organizations. The sources of lending capital used and anticipated to be used to fund such loans are loans payable, notes payable, and net assets. As of December 31, 2022 and 2021, \$113.5 million and \$85.0 million, respectively, of loans receivable were due within one year. Loans are secured through a variety of collateral arrangements. As of December 31, 2022, 81% of loans receivable were secured by first liens placed on the underlying real estate; 4% were unsecured or secured by subordinate liens; and 15% were secured by nonreal estate assignments, including developer fees, equity pay-ins, third-party credit enhancements or guarantees, and cash and investments. The loans bear interest at varying rates, which approximate 5.6% and 5.5% in the aggregate at December 31, 2022 and 2021, respectively. In accordance with historical practices, it is expected that some of these loans will be extended at maturity. Our loan policy indicates that loans should generally only be extended if there is no material adverse change in the credit, and repayment is not threatened.

Loan participations outstanding totaled \$52.9 million and \$46.9 million at December 31, 2022 and 2021, respectively.

The allowance for loan losses based on total loans receivable was 4.51% and 4.82% as of December 31, 2022 and 2021, respectively.

As of December 31, the loan portfolio consisted of the following (\$ in thousands):

	1	2022	 2021
Loans receivable Loans to unaffiliated organizations Loans to affiliated organizations (see Note 7)	\$	273,972 6,924	\$ 237,781 6,227
		280,896	 244,008
Less: allowance for loan losses		(12,663)	 (11,757)
Loans receivable, net	\$	268,233	\$ 232,251

Allowance for loan losses activity by portfolio segment for the years ended December 31 is summarized as follows (\$ in thousands):

		2022			2021						
	 Housing	Other	ther Total		Housing		Other			Total	
Allowance for loan losses Balance at beginning of year Net change in allowance for	\$ (7,763)	\$ (3,994)	\$	(11,757)	\$	(6,106)	\$	(3,314)	\$	(9,420)

Balance at end of year	\$	(1,890)	\$	(1,909)		

Note 6 - Investments in unconsolidated partnerships

We own interests in three California limited liability companies. The ownership interests are: 33.33% in the Bay Area Transit Oriented Affordable Housing Fund, LLC ("Bay Area TOD"), 33.33% in MATCH, LLC, and 25% in GSAF, LLC. We also own a 20% interest in a Georgia limited liability company, CDFI Coalition Revolving Fund, LLC ("CCRF"). The companies were created to provide capital for the acquisition, construction, and/or rehabilitation of affordable housing and community development projects. These interests are accounted for under the equity method of accounting.

Our investment in Bay Area TOD, MATCH, LLC, GSAF, LLC and CCRF totaled \$2.2 million and \$1.6 million at December 31, 2022 and 2021, respectively. Our equity increase in earnings of unconsolidated partnerships for these companies totaled \$567,000 and \$464,000 for the years ended December 31, 2022 and 2021, respectively. The net assets of these entities are not available to pay our obligations, and the creditors of these entities have no recourse to our assets.

EPF Growth Fund, LLC ("EPF") was formed in March 2021 to provide unsecured working capital and predevelopment loans for Black, Indigenous and People of Color as well as other historicallymarginalized individual leaders in the real estate industry. Partners is the managing member with a 0.01% interest. We hold a 99.99% member interest and contributed \$5 million in 2021, our full capital commitment. Since Partners controls EPF, we do not consolidate EPF, and account for our interest under the equity method of accounting. Our investment in EPF as of December 31, 2022 and 2021 totaled \$3.9 million and \$4.4 million, respectively. Our equity decrease in earnings totaled \$516,000 and \$560,000 for the years ended December 31, 2022 and 2021, respectively.

Notes to Financial Statements December 31, 2022 and 2021

We were also a 0.01% limited partner of Columbia Apartments LP. During 2017, we provided a \$5 million capital contribution and were to receive a 6% annual return. Our earnings and return of capital were in a first priority position. Our equity interest in the partnership was redeemed in 2022, with a gain of \$1.5 million. The gain is included in other revenue on the accompanying statement of activities. Our investment in Columbia Apartments LP totaled \$0 and \$3.9 million at December 31, 2022 and 2021, respectively. This interest was accounted for under the equity method of accounting.

We also have limited partner interests in two social investment funds. The funds seek to address pressing social and environmental challenges through debt and equity investments. Our interest in these investments is 0.72% and 1.60%. As of December 31, 2022 and 2021, our investment in the partnerships was \$1.4 million and \$1.5 million, respectively. These interests are accounted for under the fair value method of accounting.

Note 7 - Transactions with affiliates

We have extended an unsecured line of credit to Investment. The loan is structured as an arms-length transaction and the terms are based on what Investment can access from external lenders. Borrowings can be used by Investment for general corporate purposes. The borrowing capacity under this facility was \$30 million at December 31, 2022 and 2021. The interest rate on borrowings was LIBOR plus 1.90% at December 31, 2022 and 2021. Outstanding borrowings under this facility at December 31, 2022 and \$15 million, respectively. The credit facility is extended automatically on January 1 for successive one-year periods unless Loan Fund provides Investment 30 days notice that it will not extend.

During 2022, one of our lenders approved a program allowing us to provide a loan to Partners of \$740,000, utilizing a portion of the lender's funds. Under the program, Partners then utilized the loan to provide grants to eligible recipients for the purpose of affordable housing. Once Partners granted the funds, the lender forgave this portion of our loan, and we forgave our loan to Partners.

During 2022 and 2021, we extended two loans to Enterprise Community Development, Inc. ("ECD"), which is controlled by Investment. The total loans outstanding to ECD at December 31, 2022 and 2021 were \$6.9 million and \$6.2 million, respectively.

During 2021, we extended a \$5 million unsecured line of credit to EPF. The interest rate on the borrowings is 2.00%. The outstanding borrowing under this facility at December 31, 2022 and 2021 was \$305,000 and \$0, respectively.

During 2021, Partners provided us with a restricted contribution of \$1 million to support the lending capacity of a specific borrower.

Also during 2021, we received a restricted contribution of \$100,000 from a third party. The grant terms were later revised, and we provided the grant to Partners to meet the new terms.

Under the direction of Partners, we serve as the fund manager for EPF. During 2022 and 2021, the costs for fund administration and loan servicing provided by us totaled \$655,000 and \$353,000, respectively.

In the normal course of business, we utilize both the services of certain officers and professional and administrative personnel of affiliates and provide these services to them, where such services relate to our shared charitable purpose of creating low-income housing. We reimburse affiliates, and are reimbursed by them, for these services as well as for certain operating and administrative expenses.

Notes to Financial Statements December 31, 2022 and 2021

For 2022, the costs incurred for such services was \$3.0 million from Investment and \$48,000 from Partners, and the cost for services provided to Investment was \$106,000. For 2021, the costs incurred for such services was \$2.9 million from Investment and \$32,000 from Partners, and the cost for services provided to Investment was \$201,000.

As of December 31, 2022, advances from affiliates was \$219,000, and as of December 31, 2021, advances to affiliates was \$131,000. Advances to and from affiliates are for administrative services and to transfer payments for loan related transactions.

Note 8 - Loans and notes payable

Loans and notes payable consists of the following at December 31 (\$ in thousands):

	2022		2021		
Loans and notes payable Unamortized debt issuance costs	\$	297,450 (353)	\$	225,735 (509)	
	\$	297,097	\$	225,226	

As of December 31, 2022, loans payable bear interest at rates which vary from 0% to 4.15% and are repayable through 2047. Most of our borrowings are structured as unsecured. We have three facilities that require that we pledge collateral. Based on the requirements of the lender, we pledge the underlying loans receivable, government and agency securities, and/or cash to collateralize draws. Secured loans payable were \$38.7 million and \$54.6 million as of December 31, 2022 and 2021, respectively. Most of our loans payable reflect borrowings that have been restricted by the lender for lending to various community development organizations. Some borrowings are further restricted for use in certain locations or in certain sectors and/or initiatives. Some of our loans payable may be utilized for working capital purposes. Additionally, certain of these loans payable are guaranteed by Partners and contain covenants that require us to provide reporting on a periodic basis and to meet and maintain specific financial ratios. As of December 31, 2022, the guaranteed amount was \$72.9 million, which equates to 25% of our loans payable.

Certain of our loans payable are considered Equity Equivalent ("EQ2") investments. EQ2 investments are fully subordinated, unsecured obligations that carry a fixed interest rate and have a rolling maturity. The lender cannot accelerate repayment unless an uncured event of default exists. As of December 31, 2022 and 2021, loans payable included \$13.0 million and \$8.0 million of EQ2 investments, respectively.

We offer an Impact Note program to individuals, including employees and board members, and institutions. Investments are a minimum of \$25,000 for one to ten years at interest rates of 0% to 3.5%. As of December 31, 2022 and 2021, amounts outstanding under the program were \$44.6 million and \$41.5 million, respectively. As of December 31, 2022 and 2021, the balance due to employees and board members was \$128,000 and \$77,000, respectively.

Notes to Financial Statements December 31, 2022 and 2021

Approximate annual maturities of loans and notes payable for each of the next five years and thereafter are as follows (\$ in thousands):

Due in 2023	\$ 24,162
2024	12,446
2025	27,070
2026	48,973
2027	34,804
Thereafter	149,995
	\$ 297,450

The debt due in 2023 consists of borrowings related to loan facilities that are used to fund outstanding loans receivable. We expect to make payments at or before scheduled maturity dates of the related loans using the proceeds from the collection of loans receivable, the refinancing of loan facilities, or through the use of operating cash.

Unamortized debt issuance costs of \$353,000 and \$509,000 as of December 31, 2022 and 2021, respectively, are reported as a direct deduction from loans payable.

Note 9 - Restrictions and limitations on net asset balances

During the years ended December 31, 2022 and 2021, net assets released from donor restrictions and the events or transactions which caused the restrictions to expire totaled \$10.1 million and \$2.3 million, respectively.

As of December 31, 2022 and 2021, net assets with donor restrictions were \$37.7 million and \$31.7 million, respectively, representing contributions receivable due in future periods and gifts and other unexpended revenue restricted to specific programs.

Note 10 - Benefit plans

Partners sponsors a qualified defined contribution plan available to substantially all Loan Fund employees. This plan allows employees to make pre-tax contributions pursuant to Section 401(k) of the Internal Revenue Code and provides for employer matching contributions for eligible employees in accordance with the provisions of the plan. We match eligible participants' contributions, as defined, after one year of employment, based on a formula set forth in the plan, and may make additional contributions, subject to certain limitations, at the discretion of the Partners Board of Trustees. Participants are immediately vested in their contributions, and our matching contributions are vested over a three-year period. After three years of service, all future matching contributions are automatically vested. We made matching contributions to the plan for the years ended December 31, 2022 and 2021 of \$141,000 and \$104,000, respectively.

The plan also includes a defined contribution provision, whereby we contribute an amount equal to a percentage, as defined by the plan, of the gross compensation of each employee. These contributions vest over a three-year period as well. After three years of service, all future contributions are automatically vested. Total expenses under this plan totaled \$152,000 and \$134,000 for the years ended December 31, 2022 and 2021, respectively.

Notes to Financial Statements December 31, 2022 and 2021

Note 11 - Management's view of financial information

Management focuses on operating income excluding contributions, grants, and net change in allowance for loan losses, with a goal of operating income excluding such items of at least break even. In general, management does not utilize contributions and grants to cover the cost of operations; rather these items are used to support lending programs and to increase net assets. Management also excludes the net change in allowance for loan losses as it is a noncash item and has a negative impact on earnings when the loan portfolio is growing.

Management's view of financial information for the years ended December 31 is as follows (\$ in thousands):

	2022		2021	
Total revenue and support, excluding contributions, grants, and net assets released from restrictions Total expenses, excluding net change in allowance for loan losses	\$	19,504	\$	15,035
and grant expense		(14,810)		(13,314)
Operating income, excluding the items noted above		4,694		1,721
Contributions, grants, and net assets released from restrictions		10,127		2,267
Net change in allowance for loan losses Grant expense		(1,129) (3,544)		(676) (172)
Income from operations		10,148		3,140
Net unrealized gain on investments		58		44
Equity increase (decrease) in earnings of unconsolidated partnerships		51		(96)
Increase in net assets without donor restrictions	\$	10,257	\$	3,088

Note 12 - Commitments and contingencies

Commitments and contingencies not reflected in the statement of financial position at December 31, 2022 are indicated below:

Loans

At December 31, 2022, we have commitments to fund loans to various community development organizations of approximately \$117 million. We also have additional commitments to draw debt to fund these loans of approximately \$156 million. Our loans may also be partially funded with net assets.

Custodial accounts

During 2022, we held funds in an agency capacity through custodial accounts for participation and syndication programs. The cash and corresponding liability of \$22.9 million at December 31, 2022 is not reflected in the financial statements.

Litigation

In the ordinary course of business, we may be involved in a number of lawsuits, claims and assessments. In the opinion of management, the result of these claims will not have a material impact on the financial statements.

Notes to Financial Statements December 31, 2022 and 2021

Note 13 - Concentration of credit risk

Cash and cash equivalents are held primarily in checking accounts and money market mutual funds with carefully selected financial institutions. While at times certain deposits may exceed federally insured limits, we have not experienced any losses with respect to our cash and cash equivalent balances. Accordingly, management does not believe that we are exposed to significant credit risk with respect to cash and cash equivalents.

Note 14 - Fair value measurements

Fair value of assets or liabilities measured on a recurring basis is determined based on the price we would receive to sell an asset or pay to transfer a liability in an orderly transaction with a market participant at the measurement date. In the absence of active markets for the identical assets or liabilities, such measurements involve developing assumptions based on observable market data and, in the absence of such data, internal information that is consistent with what market participants would use in a hypothetical transaction that occurs at the measurement date.

Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect market assumptions. Preference is given to observable inputs. These two types of inputs create the following fair value hierarchy:

- Level 1 Inputs Quoted prices for identical instruments in active markets.
- Level 2 Inputs Quoted market prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.
- Level 3 Inputs Significant inputs to the valuation model are unobservable.

We maintain policies and procedures to value instruments using the best and most relevant data available. Additionally, management routinely performs various risk assessments that review valuation, including independent price validation for certain instruments. Further, in other instances, we retain independent pricing vendors to assist in valuing certain instruments. Investments in certificates of deposit were \$1.0 million at December 31, 2022 and 2021, and are deemed to be Level 1 financial instruments. Investments in marketable securities were \$56.3 million and \$0 at December 31, 2022 and 2021, respectively, and are also deemed to be Level 1 financial instruments. Investments in unconsolidated partnerships recorded at fair value, which is measured by our net asset value per share, were \$1.4 million and \$1.5 million at December 31, 2022 and 2021, respectively, and are deemed to be Level 3 financial instruments. There were no transfers into or out of Level 3 of the fair value hierarchy, and no purchases and issues of Level 3 assets and liabilities during the years ended December 31, 2022 and 2021.

Notes to Financial Statements December 31, 2022 and 2021

Note 15 - Subsequent events

Events that occur after the statement of financial position date but before the financial statements are available to be issued must be evaluated for recognition or disclosure. The effects of subsequent events that provide evidence about conditions that existed at the statement of financial position date are recognized in the accompanying financial statements. Subsequent events which provide evidence about conditions that existed after the statement of financial position date require disclosure in the accompanying notes. We evaluated our activity through April 12, 2023 (the date the financial statements were available to be issued) and concluded that no subsequent events have occurred that would require recognition in the financial statements.
