The Mobility percentile score includes: Average Travel Time to Work, Percent of Workers Who Commute Over an Hour, Percent of Workers Who Commute to Work Using Public Transportation, Percent of Workers Who Commute to Work by Walking, Percent of Households For Which No Vehicles are Available.

The Mobility percentile scores range from 0 to 100, with 100 representing the best outcomes. The scores are based on the percentiles of the Mobility Opportunity Outcomes for each census tract in Massachusetts.

In your experience, what other factors might be contributing to the outcomes observed where you live?

What steps can we make together to improve outcomes for all communities?
