HEALTH & WELL-BEING in Los Angeles, CA

Redlined Areas Sept 1937 and Apr 1938

Health & Well-Being Percentile* Scores (2017)

- **A** "BEST"
- **B** "STILL DESIRABLE"
- **C** "DEFINITELY DECLINING"
- **D** "HAZARDOUS"

*Percentile scores represent each census tract's state percentile rank for each indicator described below. A tract with a score of 30 means that the tract is in the 30th percentile—20% of tracts in New York have higher scores and 80% have lower scores.

The Health & Well-Being Percentile score includes:

- Percent of Adults Reporting to Have a Personal Doctor or Health Care Provider
- Percent of Adults Reporting to Have Good or Excellent Health
- Percent of Adults Reporting to Have Been to a Hospital in the Past Year
- Percent of Adults Reporting to Have Diabetes
- Percent of Adults Reporting to Have Chronic Obstructive Pulmonary Disease (COPD)
- Percent of Adults Reporting to Have a Physical Disability
- Percent of Adults Reporting to Have Health Insurance

**HEALTH & WELL-BEING IN LOS ANGELES, CA**

This map shows redlining on top of Enterprise’s Health & Well-Being Opportunity Outcomes which may suggest a historic legacy of redlining in Los Angeles’ communities.

**THINK ABOUT WHERE YOU LIVE**

- Where do you live?
- What stands out to you about this map?
- How might redlining play a role in shaping the experiences of the people in your community?
- In your experience, what other factors might be contributing to the outcomes observed where you live?
- What steps can we make together to improve outcomes for all communities?

**HEALTH & WELL-BEING**

- Access and Affordability of Health Care
- Health Status
