FOR 35 YEARS, WE’VE HAD JUST ONE MISSION:
Connect families to opportunity, starting with a well-designed, affordable home.

As a true partner, Enterprise is in it for good. We bring together nationwide know-how, partners, policy leadership and investment to multiply the impact of affordable homes and put opportunity within every family’s reach.

We make sure people are connected to resources through smart development and partnerships.
We foster community improvement from the ground up: well-designed, affordable homes connected to opportunity. So that people have access to resources like schools, transit, jobs and health care and can reach their full potential.

We raise private and public capital through investment and fundraising and form effective partnerships.
We increase the impact of investment in affordable homes and community development by match-making the right partners, directing private and public capital to the right places and working with government leaders by offering nonpartisan advice and support.

We continuously improve and innovate solutions, showing government leaders what’s possible when people have access to opportunity.
We’re gathering and sharing data on the power of connecting homes and communities to opportunity – and using it to create and strengthen programs and investments that help families succeed.

WE’VE GOT A STRONG RECORD OF MAKING EFFECTIVE AND EFFICIENT PROGRESS.

Where you live affects the life you can have. By bringing together the right expertise and know-how, we can make a difference.

Individuals and businesses support our housing and community development work through their charitable donations and investments in socially responsible funds and tax credits, all of which advance our mission and translate to real and lasting impact.

We leverage every dollar donated to support low-income communities, helping us to reach a scale that few other housing organizations can match.

And when you invest with Enterprise, you team up with a partner that reinvests its earnings directly back into building opportunity.

Together, we’ll continue working to make a difference.
